

Journal of Communications

CONTENTS

Volume 8, Number 10, October 2013

e-Healthcare Cloud-Enabling Characteristics, Challenges and Adaptation Solutions.....	612
<i>Wei Liu and Eun K. Park</i>	
Further Explore on Performance of Various Traffic Combination based on Network Calculus	620
<i>Yangyang Gao, Fei Song, and Yajuan Qin</i>	
A Simplified Traffic Generating Method for Network Reliability Based on Self-Similar Model.....	629
<i>Yue Zhang, Ning Huang, Ning Hu, and Zhitao Wu</i>	
Parameter Estimation and Prediction of the Chirp and Stochastic Pulse Position Modulation Combined Signal	637
<i>Wei Zhang, Ying Xiong, Pei Wang, and Bin Tang</i>	
Research on Frequency Estimation Based on LS-SVC in Unknown Noise	643
<i>Xueqian Liu</i>	
Optimization and Implementation for the Modified DFT Filter Bank Multicarrier Modulation System	651
<i>Guangyu Wang, Weiwei Zhang, Kai Shao, and Ling Zhuang</i>	
Intelligent Face Recognition based on Manifold Learning and Genetic-Chaos Algorithm Optimized Kernel Extreme Learning Machine	658
<i>Wei He, Enjun Wang, and Ting Xiong</i>	
Competition between Free Open Source, Commercial Open Source and Proprietary Software	665
<i>Mingqing Xing</i>	
Understanding the Influence of Network Topology and Network-layer Naming on the Scalability of Routing	672
<i>Feng Zhao, Baosheng Wang, Xiaofeng Hu, Wei Peng, and Chunqing Wu</i>	
A Co-Simulation-and-Test Method for CAN Bus System.....	681
<i>Chu Liu and Feng Luo</i>
