

# Journal of Communications

## CONTENTS

---

### Volume 9, Number 7, July 2014

- A New Routing Scheme Based on Adaptive Selection of Geographic Directions .....521  
*Zimu Yuan, Wei Li, and Shuhui Yang*
- Least Energy-Consumption Real-Time Routing Algorithm Based on Event-Sensitive Node Set .....535  
*Ling Zhou and Deng F. Zhang*
- Construction of Irregular QC-LDPC Codes in Near-Earth Communications.....541  
*Hui Zhao, Xiaoxiao Bao, Liang Qin, Ruyan Wang, and Hong Zhang*
- Performance Analysis of Cognitive Cooperative Communication System Based on Optimal Relay Selection Scheme  
.....548  
*Shangqing Zhao, Hui Guo, Juan Xing, and Shilong Ji*
- Relay Deployment for AF-MIMO Two-Way Relaying Networks with Antenna Selection.....556  
*Yizhen Zhang, Guobing Li, Guomei Zhang, Gangming Lv, and Chao Zhang*
- New Remapping Strategy for PDCCH Scheduling for LTE-Advanced Systems .....563  
*Bala Alhaji Salihu, Dacheng Yang, Xin Zhang, and Suleiman Zubair*
- Multuser Binary Rate Scheduling for Fading OFDM Networks with User Fairness Rate Constraints.....572  
*Xiangyu Gao and Yuesheng Zhu*
- Blind Signal Separation with Kernel Probability Density Estimation Based on MMI Criterion Optimized by  
Conjugate Gradient .....579  
*Wei Li*
