

# Journal of Communications

## CONTENTS

---

### Volume 12, Number 5, May 2017

- A Three Stage Load Sharing Routing Algorithm to Increase Lifetime of Cognitive Radio Sensor Networks .....254  
*Arslan Haider, Ateeq Ur Rehman, Noman Shabbir, Syed Rizwan Hassan, and Irfan Haider*
- Stratified ACO-OFDM Modulation for Simultaneous Transmission of Multiple Frames Both on Even and Odd Subcarriers .....261  
*Zelalem Hailu, Kibet Langat, and Ciira Maina*
- Image Compression Using Advanced Optimization Algorithms .....271  
*Mohamed E. Emara, Rehab F. Abdel-Kader, and Mohamed S. Yasein*
- The Effect of Increasing the Number of Transceivers in an Anti-jamming Channel-Hopping Scheme .....279  
*Yongchul Kim and Mihail L. Sichitiu*
- An Efficient Receiver Structure for Faster-than-Nyquist Signal in MIMO System .....285  
*Chang-Uk Baek, Gun-Woong Park, and Ji-Won Jung*
- Phase Stabilization Method Based on Optical Fiber Link .....291  
*Zhao Hua, Lv Qing, and Jin Huilong*
- An Optimal Cloud Based Road Traffic Management System with Novel VM Machine Migration Technique .....298  
*Md Rafeeq, C. Sunil Kumar, and N. Subhash Chandra*
