

Journal of Communications

CONTENTS

Volume 12, Number 10, October 2017

- A Comparative Study on Improving Quality of Service in Networks Carrying Multi-Service Level Data over Resource-Limited Multi-Hop Wireless Networks543
Sajid M. Sheikh, Herman A. Engelbrecht, and Riaan Wolhuter
- Work Stealing Based Volunteer Computing Coordination in P2P Environments557
Wei Li and William W. Guo
- Audit of a Real Wi-Fi Deployment to Provide Data, VoIP Communications and an IIoT Item Location Service565
David Perez-Diaz-de-Cerio, Jose Luis Valenzuela, and Mario Garcia-Lozano
- Cell Selection Technique for Offloading in Cellular Networks572
Suman Deswal and Anita Singhrova
- TBR: Tree-Based Routing over a 3D Grid for Underwater Wireless Sensor Networks579
Khaled Day, Hussein Al-Moqbali, Nasser Alzeidi, and Abderezak Touze
- Proposal of Seamless Communication Method in Shadow Area Using LoRaWAN585
Jun-Hwan Huh, Dong-Hyun Kim, and Jong-Deok Kim
- A Comparison of Rule-Based and Machine Learning Methods for Classification of Spikes in EEG589
Wolfgang Ganglberger, Gerhard Gritsch, Manfred M. Hartmann, Franz F ürbass, Hannes Perko, Ana Skupch, and Tilmann Kluge
