

# Journal of Communications

## CONTENTS

---

### Volume 16, Number 11, November 2021

- PAPR Reduction in MIMO-OFDM Systems Using Low-Complexity Additive Signal Mixing .....468  
*Stephen Kiambi, Elijah Mwangi, and George Kamucha*
- An Interference Assessment between New Unlicensed Wireless Connectivity and Outside Broadcasting Service in the 6 GHz Band .....479  
*Seung-Nam Kim, Il-Kyoo Lee, and Bub-Joo Kang*
- DGS Loaded Broadband Circular Patch Antenna for Satellite Communications.....485  
*Nelapati Ananda Rao, V. V. Satyanarayana Tallapragada, D. Venkat Reddy, and K. L. Narasihimha Prasad*
- Performance Analysis of 5G Stand Alone Inter-band Carrier Aggregation.....492  
*Alfin Hikmaturokhman, Levina Anora, Solichah Larasati, Ari Sukarno, Rizky Syafrullah, and Khoirun Ni'amah*
- Employing Keyed Hash Algorithm, Sequential Probability Ratio Test, and Temperature Comparison Test as Security Against Node Capture Attacks of IoT-Based WSNs .....500  
*Jhon Aron F. Varca, Earl Nestor T. Velasquez, and Joseph Bryan G. Ibarra*
- Performance Comparison of Non-Linear Median Filter Built on MLP-ANN and Conventional MLP-ANN: Using Improved Dataset Training in Micro-Cell Environment .....508  
*Virginia C. Ebhota and Viranjay M. Srivastava*
- A Prototype Orthogonal Vertical Beamforming for Indoor Wireless Communications .....516  
*Paleerat Wongchampa*
- An Architecture Design of Auto Channel Switching Unit for Hybrid Visible Light Communication System .....522  
*Rao Kashif, Fujiang Lin, Oluwole John Famoriji, and Shahzad Haider*
