CONTENTS

Volume 17, Number 5, May 2022

- Adaptive Security-aware Cone-shaped Request-zone Location-aided Routing Protocol Using Agent-Based Methodology for VANETs.....308
Maen S. Saleh
- A Proportional Scheduling Protocol for the OFDMA-Based Future Wi-Fi Network322
Gazi Zahirul Islam and Mohammod Abul Kashem
- Fault Prediction for Network Devices Using Service Outage Prediction Model339
Sunita A Yadwad and Valli Kumari Vatsavayi
- Development of a Simulated Portable Mesh Network via ESP8266-Based Devices with Utility Application350
Dennis A. Martillano, John Patrick M. Asiddao, Roy Carlos B. Dupaya, Ken Brian B. Lavina, and Patricia Alexandra A. Sy
- High-Performance and Low-Complexity Decoding Algorithms for 5G Low-Density Parity-Check Codes358
Bich Ngoc Tran-Thi, Thien Truong Nguyen-Ly, and Trang Hoang
- Performance Analysis of Rectangular Microstrip Wearable Textile Antenna with Series of Slots365
A. Rajesh, R. Vani, and B. Rama Rao
- Development of Scalable IoT-Based Smart Home Infrastructure Using ESP-Mesh.....373
Syifaul Fuada and Hendriyana
- Implementation Dual Parallelism Cybersecurity Architecture on FPGA.....386
Nada Qasim Mohammed, Amiza Amir, Muataz Hamed Salih, Hana Arrfou, Qasim Mohaammed Hussein, and Badlishah Ahmad
- Radiation Pattern, Surface Current Distribution, and Q-Factor Improvement Technique Using DMS CSPA: Part-II.....393
Elliot O. Omoru and Viranjay M. Srivastava
- Biosignal Classification Based on Multi-Feature Multi-Dimensional WaveNet-LSTM Models399
Yue Meng, Linghao Lin, Zhiliang Qin, Yuanyuan Qu, Yu Qin, and Yingying Li
