CONTENTS

Volume 17, Number 6, June 2022

- Interference Management in Small Cell System405
Aya Allah A. Elserwe, Adly S. Tag El Dein, and Reham S. Saad
- Minimizing the PAPR for FBMC/OQAM Signals Using Enhanced-PTS with Low Complexity Search.....412
Mahaman Noura Issaka Ango, Elijah Mwangi, and Moctar Mossi Idrissa
- Wearable Tool for Breathing Pattern Recognition and Exacerbation Monitoring for COPD Patients via a Device-to-Cloud Communication Model423
Dennis A. Martillano, Marco C. Iligan, Algerica Raeven R. Ramos, Allan Daraman Jr., and March Fernan H. Abadines
- Extended Permutation Coding with Spectral Shaping Capability434
K. Ogunyanda, T. G. Swart, and O. O. Ogunyanda
- A Semantic MSOAH-IoT Design for Improving Efficiency and Solving Heterogeneity within IoT Applications443
Mohammed Lamnaour, Mohammed Achkari Begdouri, Yasser Mesmoudi, Yasser EL Khamlichi, and Abderrahim Tahiri
- Transmission Techniques for Multi User MIMO VLC Systems Using Flip-OFDM452
Mahesh Kumar Jha, Navin Kumar, and Y. V. S. Lakshmi
- Beamspace NOMA Using User Clustering and Throughput Optimisation Algorithms for Massive MIMO463
Haitham Al Fatli, Khairun Nidzam Ramli, and Elfarizanis Baharudin
- Study and Analysis of Beamforming Algorithm between LMS and SMI472
Bashar S. Bashar and Marwa M. Ismail
- Constructing New Representative Collective Signature Using the GOST R34.10-2012478
Tuan Nguyen Kim, Duy Ho Ngoc, and Nikolay A. Moldovyan
- A New Method of Dual-Hop Energy Harvesting and Efficient Power Allocation in IoT Networks Using a Bio-Inspired Based Power Distribution Scheme486
Farhana Mustafa, Javaid A. Sheikh, Sumina Sidiq, Ishfaq Bashir Sofi, and Gh. Mohiuddin Bhat
