### Volume 18, Number 5, May 2023

- Switching Speed Analysis of MOSFET-Based Absorber Integrated Antenna for 5G/WiMAX/WLAN .....274  
*Elliot O. Omoru and Viranjay M. Srivastava*
- Automating Internet of Things Network Traffic Collection with Robotic Arm Interactions .....283  
*Xi Jiang and Noah Apthorpe*
- Confidentiality Enhancement Using Spread Spectrum Modulation Technique for Aggregated Data in Wireless Sensor Networks.....294  
*Trupti Shripad Tagare and Rajashree Narendra*
- A New Objective Function for RPL Based on Combined Metrics in Mobile IoT.....301  
*Hassan Echoukairi, Ali Ouacha, Jawad Oubaha, and Mohamed El Ghmary*
- The Evaluation of IEEE 802.11ah Performance Based on the Effect of Mobility, Node's Number, and Traffic Using the Markov Chain Model .....310  
*Tengku Ahmad Riza, Dadang Gunawan, and Ajib S. Arifin*
- Heterogeneous Architecture for DSRC/LTE Vehicular Communication Networks Based on the ITS Reference Architecture with Fuzzy Logic for Decision-Making .....318  
*Michael Agyare, Jerry John Kponyo, Kwasi Adu-Boahen Opare, and Kwame Oteng Gyasi*
- Managing Concurrent Queues for Efficient In-Vehicle Gateways .....333  
*Miltos D. Grammatikakis, Stelios Ninidakis, George Kornaros, Dimitris Bakoyiannis, Nikos Mouzakitidis, and Alexis Staridas*
- Operation-Time Prolonging Method for IoT-Based Outdoor Environment Monitoring System .....340  
*Nobuyoshi Komuro and Sorato Mochizuki*
