CONTENTS

Volume 12, Number 6, June 2017

- EA-Epidemic: An Energy Aware Epidemic-Based Routing Protocol for Delay Tolerant Networks.....304
Bhed B. Bista and Danda B. Rawat
- Performance Analysis of FSO Communication Systems with Higher-Order Spatial Diversity Schemes Using BPSK-SIM over Log-Normal Atmospheric Turbulence Channels.....312
Okikiade A. Layioye, Thomas J. O. Afullo, and Pius A. Owolawi
- Smart Antenna for Wireless Communication Systems using Spatial Signal Processing328
Ayodele S. Oluwole and Viranjay M. Srivastava
- A Web-Based Modelling and Monitoring System Based on Coupling Environmental Models and Hydrological-Related Data340
Michal Podhoranyi, Patrik Veteska, Daniela Szturcova, Lukas Vojacek, and Antoni Portero
- Performance Analysis of Noise Signal Reduction Using Novel MUSIC Method of Adaptive Arrays.....347
Kwan Hyeong Lee and Tae Jun Cho
- Load Balanced and Link Break Prediction Routing Protocol for Mobile Ad Hoc Networks353
Mandeep Kaur Gulati, Monika Sachdeva, and Krishan Kumar
- Refined Concepts of Massive and Flexible Cyber Attacks with Information Warfare Strategies.....364
Horatiu Moga, Mircea Boscoianu, Delia A. Ungureanu, Florin D. Sandu, and Razvan Boboc
