Volume 13, Number 5, May 2018

Hybrid Monitoring Technique for Detecting Abnormal Behaviour in RPL-Based Network	198
<i>Mahmood Alzubaidi, Mohammed Anbar, Yung-Wey Chong, and Shadi Al-Sarawi</i>	
Future Controller Design and Implementation Trends in Software Defined Networking	209
<i>Wajid Hassan and Tamer Omar</i>	
Performance Comparison of Proactive and Reactive Routing Protocol in Mobile Ad Hoc Network	218
<i>Bekti Maryuni Susanto, Agus Hariyanto, and Surateno</i>	
Microstrip Grid Antenna Array for 5G Mobile Devices	225
<i>Saif Aldeen Saad Obayes Al-Kadhim, Ibtisam R. K. Al-Saedi, and Basil Jabir Shanshool</i>	
A Smoothed and Thresholded Linear Prediction Analysis for Efficient Speech Coding	230
<i>Adel Alatwi and Kuldip K. Paliwal</i>	
Link Expiration Time Aware Routing: Distributed Power Management in MANETs	236
<i>Firas Sabah Al-Turaihi, Ismail Hburi, and Hamed. S. Al-Raweshidy</i>	
Pattern Reconfigurable Dielectric Resonator Antenna Using Parasitic Feed Elements for LTE Femtocell Base Stations	242
<i>Aymen Dheyaa Khaleel, Mohd Fais Mansor, Norbahiah Misran, and Mohammad Tariqul Islam</i>	
Bidirectional DWDM-RoF System Employing 16QAM-OFDM Downstream Signal and Optical Carrier Reuse for Upstream Transmission.....	247
<i>AbdulNasser A. Abbood and Hamed S. Al-Raweshidy</i>	
A Survey on Software-Defined Wide Area Networks	253
<i>Xugang Wu, Kai Lu, and Guoliang Zhu</i>
