

Journal of Communications

CONTENTS

Volume 15, Number 6, June 2020

- Improved Navigation and Guidance System of AUV Using Sensors Fusion.....455
Hatem A. Khater, Ashraf. Elsayed, and Noha. El-Shoafy
- Data Streams Scheduling Approach for WiMAX Networks469
Khaled Abdalgader and Dinesh Kumar Saini
- General Multi-constrained QoS Routing Using Nonlinear Function and Weighted Metrics480
Maneenate Puongmanee and Teerapat Sanguankotchakorn
- Networked Decentralized Control of Adaptive Structures.....496
Alexander Warsewa, Julia L. Wagner, Michael Böhm, Oliver Sawodny, and Cristina Tarí
- A Novel Algorithm for Optimization of Mobile Network Performance with Self-Organized Network.....503
Eman Serag El Din and Mahammad A. Safwat
- UWB Positioning System with the Support of MEMS Sensors for Indoor and Outdoor Environment511
Krzysztof Paszek, Damian Grzechca, Mateusz Tomczyk, and Artur Marciniak
- Prototyping the Li-Fi System Based on IEEE 802.15.7 PHY.II.1 Standard Compliance519
Syifaul Fuada, Trio Adiono, Fuad Ismail, and Erwin Setiawan
- Energy Efficient Cluster Head Selection Using Squirrel Search Algorithm in Wireless Sensor Networks528
N. Lavanya and T. Shankar
- A Comparative Performance Analysis of Manet Routing Protocols in Various Propagation Loss Models Using NS3 Simulator537
Sabra A. Saleh, Megat F. Zuhairi, and Hassan Dao
