

# Journal of Communications

## CONTENTS

---

### Volume 15, Number 10, October 2020

- Experimental Study of Component-Differentially-Challenged XOR PUFs as Security Primitives for Internet-of-Things.....714  
*Khalid T. Mursi and Yu Zhuang*
- The Impacts of DNS Protocol Security Weaknesses .....722  
*Willian A. Dimitrov and Galina S. Panayotova*
- A Triple-Band Antenna Loaded with Reflector Surface for WLAN and 5G Applications.....729  
*Tengfei Hu, Zhenni Pan, Megumi Saitou, Jiang Liu, and Shigeru Shimamoto*
- Implementing IoT Lottery on Data Encryption Standard .....735  
*Mohammed M. Alani, Muath Alrammal, and Munir Naveed*
- A Methodology to Select Topology Generators for Ad Hoc Mesh Network Simulations.....741  
*Michael O'Sullivan, Leonardo Aniello, and Vladimiro Sassone*
- A New Method for Designing Post-Quantum Signature Schemes .....747  
*Minh Nguyen Hieu, Moldovyan Alexander Andreevich, Moldovyan Nikolay Andreevich, and Canh Hoang Ngoc*
- Integrating Smartphone Network Architecture and Data Security Techniques to Mitigate Sharp Practices in Non-Profit Organizations .....755  
*Matimu Caswell Nkuna, Ebenezer Esenogho, and Reolyn Heymann*
- Transmission Power Based Intelligent Model in VANET .....768  
*Pushpender Sarao*
