

Journal of Communications

CONTENTS

Volume 15, Number 11, November 2020

- The Experimental Study of Performance Impairment of Big Data Processing in Dynamic and Opportunistic Environments.....776
Wei Li and William W. Guo
- Energy Savings by Using Traffic Estimation for Dynamic Capacity Adaptation in Communication Network Operations.....790
Andreas Ahrens, Christoph Lange, and Jelena Zašcerinska
- Irregular Geometry Based Sectored FFR Scheme for ICI Mitigation in Multicellular Networks.....796
Rahat Ullah, Hanif Ullah, Zubair Khalid, and Hashim Safdar
- Lightweight Convolutional Neural Network Based Intrusion Detection System.....808
Vinh Pham, Eunil Seo, and Tai-Myoung Chung
- Low-complexity Detectors for Cyclic Structured Space-time Block Coded Spatial Modulation over a Slow Rayleigh Fading Channel818
Dickson O. Egbune, Babatunde S. Adejumbi, Isaac O. A. Omeiza, Frank A. Ibikunle, Adeniyi Olayanju, Ayodele S. Oluwole, and Thokozani Shongwe
- WSDSBL Method for Wideband Channel Estimation in Millimeter-Wave MIMO Systems with Lens Antenna Array.....826
Jicheng Dong, Wei Zhang, Bowen Yang, and Xihong Sang
- MOSFET Based Absorber for Reflected Signal in 5G Massive MIMO Base Station - A Circuit Perspective833
Elliot O. Omoru and Viranjay M. Srivastava
- Speech Separation in the Frequency Domain with Autoencoder841
Hao D. Do, Son T. Tran, and Duc T. Chau
