CONTENTS

Volume 17, Number 9, September 2022

- Studying Routing Issues in Vanets Using Ns-3 and SUMO682
Mohammad M. Abdellatif and Omar Aly
- An Improved Multipath Energy Aware On-Demand Routing Protocol for MANETs691
Rajendra Prasad P and Shivashankar
- Effect of Number of Nodes and Distance between Communicating Nodes on WSN Characteristics705
Mahmoud Z. Iskandarani
- Free Space Optics Link Performance Estimation Under Diverse Conditions714
Tagnon P. Okoumassoun, Anita Antwiwaa, and Nana K. Gerrar
- NOMA VLC Systems and Neural Network Approach for Imperfect SIC.....723
Mahesh Kumar Jha, Navin Kumar, Rubini P., and Y. V. S. Lakshmi
- Comparative Review of Routing Protocols in MANET for Future Research in Disaster Management734
Abdul Majid Soomro, Mohd Farhan Bin Md. Fudzee, Muzammil Hussain, Hafiz Muhammad Saim, Gohar Zaman, Atta-ur-Rahman, Haya AlUbaidan, and Majed Nabil
- Intelligent Reflecting Surface (IRS) assisted mmWave Wireless Communication Systems: A Survey745
Nandan S. and M. Abdul Rahiman
- The Design and Implementation of a Ray-tracing Algorithm for Signal-level Pulsed Radar Simulation Using the NVIDIA® OptiX™ Engine.....761
Mogamat Yaaseen Martin, Simon L. Winberg, Mohammed Yunus Abdul Gaffar, and David Macleod
- Deep Learning Algorithm Models for Spam Identification on Cellular Short Message Service769
Alfin Hikmaturokhman, Hanin Nafi'ah, Solichah Larasati, Ade Wahyudin, Galih Aripawira, and Subuh Pramono
